

Project Progress Report

Karhik Venkat Ramanan

kv16@illinois.edu

1) Which tasks have been completed?

1. I've Implemented a prototype for the extension.
2. I've identified the entity linker to use
3. I've identified the knowledge base to use

2) Which tasks are pending?

1. Including context from the web page using TF-IDF.
2. Completing the extension.
3. Including nearby entity view

3) Are you facing any challenges?

I'll have to confirm with the TAs that I don't have to report any metrics for this project. This is more of a tool for search than a new IR model.
